# Your Key to Lower Auto Insurance Rates

Auto insurance rates can vary by hundreds of dollars – depending on your car, the insurance company, the way you drive, and more. Here are some tips to get the best rate possible on your auto insurance:

1. Shop around
2. Compare insurance costs BEFORE you buy a car
3. Increase your deductible
4. Reduce coverage on older vehicles
5. Purchase your auto and homeowners from the same insurer
6. See if you qualify for low mileage discounts
7. Ask about group insurance
8. Maintain good credit
9. Seek out safe driver discounts
10. **CALL UIP FOR A FREE QUOTE**

The key to savings is not the discounts but the final price. Call or visit our website for free, no obligation quotes from many quality insurance carriers.
